PERFORMANCE SERIES

Neapco® Performance Series U-Joints.

# BEAST MODE

Strength and Endurance

We Outperform Our Competition,  
So You Can Outperform Yours!

*neapco*  
One Team. One Mission. Since 1921.

Manufacturing Driveline Solutions®  
in the USA Since 1921.

# The Difference is Clear!

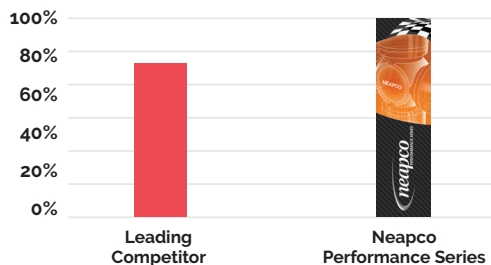

After rigorous head-to-head testing between a Neapco Performance Series U-joint and a Leading Competitor, Neapco lived to see another day. The leading competitor did NOT.

See for yourself.

## Neapco® Performance Series U-Joint after rigorous head-to-head testing

## Leading Competitor U-Joint after rigorous head-to-head testing

# Neapco® Performance Series Universal Joints

Neapco Performance Series Universal Joints are the next generation of u-joints and outperform the leading competitor's joints in ultimate strength and fatigue tests. Neapco Performance Series U-joints achieve this exceptional performance by paying close attention to the details that make big differences:

- **Enhanced design thrust washer** with a low-friction additive to the material decreases stick-slip and provides lower heat generation, friction, and wear due to new geometry.
- **Increased trunnion diameter** for optimum strength. The addition of a needle bearing and a reduction in grease reservoir depth increases the overall strength and improves stress distribution along the trunnion.
- **A quad-lip seal** prevents grease purging and outside contaminants from entering the u-joints.
- **Revolutionary Journal /Spider Body Design** is re-engineered to provide smoother transitions, ultimately decreasing stress risers throughout the u-joint while the proprietary, in-house heat treating provides Beast Mode strength and durability in all the right places.
- **Neapco Performance Series Ultra-Performance Synthetic U-Joint Grease** provides superior durability, greater water resistance, and is stable across a wide range of temperatures.

# Trust Neapco - We Outperform the Leading Competitor in Every Series Tested. The Numbers Don't Lie!

– Ultimate Strength (pure brute strength) – Low-Cycle Fatigue (off-road & racing endurance) – High-Cycle Fatigue (everyday use and towing endurance)

Neapco Performance Series Universal Joints are Made in the U.S.A and are immediately available in the following series and conversions: 1310=Part# 1-0153P; 1330=Part# 2-4800P; 1350=Part#2-0053P; 1410=Part# 2-0054; 3R=Part# 2-3011P; 7290=Part# 2-1175P; 1330/3R=Part# 2-1569P; 1330/7290=Part# 2-0355P; P55-55-675=Part# 2-4900P COMING SOON 1480 and 1550 Series

# About Neapco®

Neapco, founded as the New England Auto Products Corporation, has been serving the OEM and aftermarket driveline markets since 1921. In March of 2021, the company celebrated its 100th anniversary. Named as one of the fastest-growing private companies in the United States by Inc. Magazine and placing on the Crain's Fast 50 list, Neapco designs, manufactures and distributes both OEM and aftermarket driveline products for automotive, commercial vehicle, off-highway and other specialized applications across the globe. Neapco's highly respected products are developed and produced by a diverse team of more than 3,000 employees located in five countries. The Company is headquartered in Farmington Hills, Michigan.

## Perfect Partners in Performance for NPS U-Joints!

### Ultra-Performance Universal Joint Grease

Proven performance allowing up to 150k+ of service-free life in the most demanding applications.

### Neapco Performance Series Carbon Fiber Driveshafts with

CARBON FIBER DRIVESHAFTS

**TRAKHOOK** By neapco PERFORMANCE SERIES

Lighter.  
Stronger.  
Smoother.
