

SPL[®]250 LITE SERIES REPAIR SOLUTION

A new, simplified solution for repairing
Spicer SPL[®]250 LITE drivelines

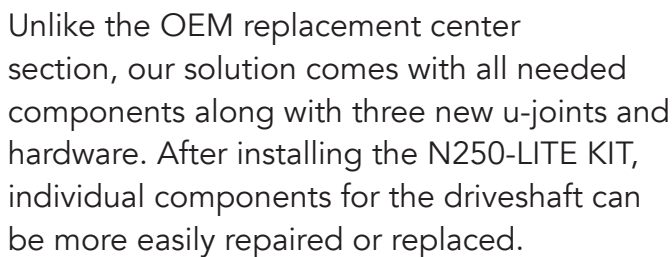

Manufacturing Driveline Solutions[®]
in the USA Since 1921.

NeapcoAftermarket.com

Enhanced Features and Benefits:

- Creates the ability to repair SPL® 250 Lite driveshafts with aftermarket standard components saving significant costs.
- Speeds the repair or replacement process by eliminating the glued-on center bearing.
- Enables the reuse of OEM weld yokes and tubing.

N250-LITE KIT replaces all OEM proprietary parts with readily available Neapco N250 series parts
